

DOVER WATCH
WEST DOVER, VERMONT

Construction of the resort property close to Mt. Snow and the Dover Country Club began in 1978 with ambitions of 22-four unit cluster townhome buildings and a Clubhouse. Only 4 buildings were built and the initial timeshare owners left with a never completed development. Hendren Design Associates teamed with Resort Realty and Development to renovate the aged units and complete the dream of the resort promised to the struggling Homeowners Association.
